To The Chief Secretary
to the Government of Mysore

Sir,

With reference to your letter No. 12322 / R 1473-93 of the 18th Ultimo, I have the honor to enclose a sketch of the Lands below the Kunigal Tank known as the Kurli and Varanapa Medoos together with a statement shewing their survey numbers, extent, and the amount of assessment fixed by Government.

2. I have selected the 15 numbers Colored green in the sketch from No. 117 to 368 which make

with

with the numbers taken up last year a convenient block. Of these only 5 numbers as shewn in the statement are in the occupancy of ryots. The remainder have been waste for years.

3. It will be necessary for Government to resume and hand over the 5 numbers in the possession of the ryots to this Department on the payment of a reasonable compensation; otherwise it would be inconvenient to them as well as to the Farmers = ants if they were left in possession.

4. Nos 132, 354 and 355 were

waste and have already been included in the Lucerne garden, but orders were not obtained from Government to hand them over to the Farm which I would now solicit -

5. A cart track as shewn in the sketch will be made through these numbers and in no way interfere with the pyats -

6. I have as suggested taken up as little occupied land as is compatible with the necessity of the case and would request the favor of sanction being given at an

early date to enable a hedge
to be planted and the land
ploughed up this season -
